All are welcome to participate in the services of SAI Kuteer.

Divinity Revealed a Lot About Itself to Humanity During the 19th and 20th Centuries

In many respects the 19th and 20th centuries stand unique as compared to other centuries in Anno Domini (AD). During the past 150 years the humanity has seen an unprecedented growth of population, advances in science, medicine, technology, transportation and communications. But the humanity also witnessed many unwanted incidents, such as two world wars with nuclear explosions and genocides, natural calamities, famines and depression. **To match the material advancement of the humanity during the 19th and 20th centuries, in parallel Divinity revealed a lot about Itself in the form of Divine Personalities, the Sai Babas.** While the purpose of Rama and Krishna Avatars was to punish the wicked and save the virtuous people, and thus restore Dharma, the Sai Babas did not come to punish anyone. They came with infinite love to save every human being and lead him/her from untruth to truth, from darkness to light, and from death to immortality. Moreover, they did not preach a new religion or doctrine. **They worked relentlessly to strengthen the five universal principles, which are common to all religions or faiths – Satya (Truth), Dharma (Righteousness), Santhi (Peace), Prema (Love), and Ahimsa (Non-violence).** While doing so, they attracted followers from all corners of the world, from all religions and faiths. This is a unique feature of both Sai Babas, who relentlessly worked for uplifting the humanity from mundane thinking to higher realm of existence. During this process, incidentally they revealed a lot about Divinity to the humanity. **Why did Divinity reveal so much about Itself to humanity during the 19th and 20th centuries?** Because, during the 19th and 20th centuries the humanity has attained new heights in material existence, and unless awakening of Divinity takes place in the collective human consciousness, the material attainment may lead to self-destruction. In other words, Sai Babas have come just at the nick of the time when humanity is at a new pinnacle of existence and needed the directions from the Divinity. **The Sai Babas, while revealing so much about Divinity, have also shown to the people how to make the best use of money and resources (both material and human) on earth for the collective welfare and progress of the humanity. SAI Kuteer has been conceived and being developed on this unique aspect of SAI Avatars. We are thrice blessed to live at a time of the history when humanity just had a direct contact with Divinity in flesh and blood in the form of Sai Babas.**

What is SAI Kuteer and what purpose it serves? SAI Kuteer has been conceived and lunched as a registered organization that amalgamates spirituality and charitable service to the community based on the lives and teachings of Shirdi Sai Baba and Sri Sathya Sai Baba. SAI Kuteer is an abode open to all to experience Universal Love and practice Selfless Service to humanity. On October 9, 2016, SAI Kuteer was inaugurated in a public place in Sandy, Utah.
